

S4FE-D™

CBRN DECONTAMINATION PRODUCTS

REMOVES 98%
OF CHEMICAL
CONTAMINANTS

REMOVES 98%
OF BIOLOGICAL
CONTAMINANTS

REMOVES 99%
OF RADIOACTIVE
CONTAMINANTS

S4FE-D™ CBRN Decontamination products are the safest and most effective decontamination product available. Our proprietary **Bind-It™ Decontaminant Formula** attracts, binds and encapsulates contamination in solution, while strong surfactants lift away dirt, dust, oils, grease, bacteria, germs, viruses, blood, biological material, chemicals, and radioactive contaminants.

Key Features

- Effective cleaner and decontaminant in one
- Highly effective on: Tc, Mo, I, F, Tl, Ga, In, Cr, Sm, Lu, Cs, Ac, Pb—all Nuclear Medicine Isotopes
- Binds and removes radioactive skin contamination
- Removes chemical and biological contamination- remove dangerous drugs and pathogens
- Non-corrosive, non-toxic, non-flammable, skin-safe formula with a pH of 6.5
- Safe on delicate detectors, probes and survey meters, as well as lead glass
- Ideal for cleaning washrooms, bench tops, fume hoods, floors—all surfaces
- Extremely effective on I-131; clean isolation rooms and patient accidents
- Safe to use on all CBRN Safety and HAZMAT Gear
- 48 month shelf-life (open or unopened)
- Pleasantly scented - no harsh odors
- Made in the USA

Tested and Proven

In independent 3rd-party tests, Our proprietary, **Bind-It™ Decontaminate Formula** effectively removed over 98% of biological contaminants, over 98% of chemical contaminants and up to 99% of radioactive contaminants in a single application. The **Bind-It™ Decontaminate Formula** has been used for over 30 years.

S4FE-D™ CBRN Decontamination products - Powered by Bind-It™ are used worldwide in Nuclear Medicine Departments, Nuclear Pharmacies, Veterinary Clinics. Nuclear Power Plants, Law Enforcement, Fire and Rescue, Military, Civil Defense, Industrial Manufacturing, Mining and more.

S4FE-D™ CBRN Decontamination products are available in different configurations to suit every need.

SKU	Product	Description
S-0016-C	S4FE-D™ CBRN Decontaminant Concentrate	A 16oz (473ml) bottle makes approximately 175 oz (5+ bottles) of ready-to-use solution to refill spray bottles, clean large areas, or soak laundry. Dilute 10:1 with clean filtered, bottled or distilled water.
